## Areas of research, expertise and publication

---

- I have made my career in the field of the **network industries**, where I remain particularly interested in the co-evolution between institutions and technology, the regulation of the network industries as well as their governance more generally. I look at digital platforms as a new type of network industries, to which similar regulations could be applied ([www.network-industries.org](http://www.network-industries.org)). In terms of geographical focus, I am mostly competent on Switzerland, Europe and Turkey.
- I have developed, over the past six years, an expertise about **governance of large urban systems** including the role of digitalization in such governance (e.g., “smart cities”) ([www.iglus.org](http://www.iglus.org)).
- I have a long-standing research interest in questions of **environment and development**, dating back to the beginning of my academic career. In terms of geographical focus, I have come to be active in Arctic research and advocacy ([www.globalarctic.org](http://www.globalarctic.org)).

## Grants, contracts, and proposals

---

During my academic career I have raised more than 8 Mio. CHF in research funds for 30 research projects (details upon request).

## Student advising

---

I currently have one PhD student under my supervision at ITÜ. During my career I have advised 27 PhD students, sat on 35 PhD committees, and accompanied 38 master students in their internships and master theses.

## Teaching

---

I am currently teaching one course / year at Istanbul Technical University (ITÜ) on the **regulation of network industries**.

I have been teaching at EPFL between 2003 and 2020 masters (Corporate Governance; Industry Analysis) and PhD courses (Qualitative Research Methods; Industry Regulation) and have received the best teacher award in 2011 and 2020.

The following four **MOOCs** (Massive Open Online Courses) are currently running:

- *Managing Urban Infrastructures*, online as of February 2016 (Coursera and EdX); so far over 28'000 students
- *Smart cities*, online February 2017 (Coursera and EdX); so far over 23'000 students
- *GlobalArctic*, online July 2018 (Coursera); so far over 1'000 students
- *Innovative Governance of Large Urban Systems*, online as of February 2020 (Coursera); so far 3'000 students

## Executive Education

---

I have been very active in Executive Education both as a teacher and as an organizer. During my career, I have mounted 4 executive education programs:

- Executive master in *Electronic Governance* accredited by EPFL, which was running between 2005 and 2011 (6 editions)

- Executive master in *Postal Management* accredited by EPFL, which was running between 2009 and 2011 (3 editions)
- Executive Certificate program on *Governing Energy Transition*, which was accredited by EPFL between 2017 and 2020 (4 editions); I have handed this program over to the University of St.Gallen, where it continues.

In 2014 I have started a global Executive Masters Program on the **Innovative Governance of Large Urban Systems** (IGLUS; [www.iglus.org](http://www.iglus.org)). This program is accredited by EPFL and is currently in its 6<sup>th</sup> edition. The program continues under my directorship and is operated by EPFL Middle East ([www.epfl.ae](http://www.epfl.ae)).

---

## Organization of stakeholder forums

I have organized numerous stakeholder forums on questions of governance and regulation of network industries, starting with the Florence School of Regulation since 2010 and more recently also as part of my consulting activities with EPFL's Center for Digital Trust ([www.c4dt.org](http://www.c4dt.org)).

---

## Professional Service

I have been serving and continue to serve in numerous ways, most notably as:

- Editor-in-Chief of the international academic journal *Competition and Regulation in Network Industries* (SAGE; 2017) with its annual conference (since 2012)
- Editor-in-Chief of the online journal *Network Industries Quarterly* (since 1998)
- Editor-in-Chief of the online journal *Network Industries Quarterly – Turkey* (since 2000)
- Vice-president of the board of *Avenir Mobilité* (Switzerland since 2016)
- Member of the board of the *Aviation Research Center Switzerland* (ARCS, since 2018)
- Member of several editorial boards: *Utilities Policy* (Elsevier), *Sosyoekonomi* (Journal of Economics and Administrative Sciences), *Zeitschrift für Verkehrswissenschaft*, *Annals of Public and Cooperative Economics*, *Journal Transformational Learning*, and *Global Environmental Politics*.

### Past

- Member of the Swiss Railway regulator (RailCom) between 2004 and 2015
- Member of the Swiss Federal Electricity regulator (ElCom) between 2007 and 2019
